Allowable Subject Matter

- 2. Claims 1-8, 15-21 and 26-31 are allowed.
- 3. Claims 1-8, 15-21 and 26-31 are renumbered.
- 4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-8 and 26, none of the prior art of record teaches or suggests a JMX monitor object adapted to monitor the time varying signal and return appropriate testing values and a notifier software object adapted to generate a notification in response to the monitoring of said time varying signal by the JMX monitor object, in combination with the rest of the claim limitations.

Regarding claims 15-21 and 27, none of the prior art of record teaches or suggests polling the generator software object at a frequency at least twice the frequency of the generated time varying signal using a monitor object of the JMX monitor and returning a testing value for each polling of the generator software object, in combination with the rest of the claim limitations.

Regarding claims 28 and 29, none of the prior art of record teaches or suggests a notifier software object adapted to generate a notification in response to the monitoring of the time varying unorthodox signal by the JMX monitor object, in combination with the rest of the claim limitations.

Regarding claims 30 and 31, none of the prior art of record teaches or suggests polling the generator software object at a frequency at least twice the frequency of the generated time varying unorthodox signal using a monitor object
